

ABOUT HOSTING AN AFFILIATE EVENT

Fly Fishing Film Tour Canada invites you to bring the F3T to your community through the F3T “Affiliate Program” and increase the awareness of fishing through a staged event featuring our powerful films. We offer a proven way to entertain and motivate audiences in your town. The event can be used to raise funds for a local or national organization, gain exposure for an environmental campaign and create exposure for local fishing retailers. We encourage you to consider joining with others who have introduced this inspiring event to their community.

It is easy and affordable to host a screening. We provide a turnkey event complete with all the films, promotional materials and proven online capability for ticket sales. You have to select and book an appropriate venue and then reach out into your community to bring together your audience. An event can be hosted within a few weeks if you already have a well-defined audience. As an Affiliate you are not restricted to a beginning of the year event. End of the year events have proven to be equally as successful and we encourage you to consider this option.

For the established fly fisher the event provides inspiration before the new season kicks off. For the novice it is an introduction to broader fly fishing experience and an opportunity to “hang out” with the experts. For the fishing industry as a whole it is a unique opportunity to introduce new products to a responsive customer. Many audience members do not fish but nevertheless have enjoyed the beauty and excitement of the film and the overall entertainment provided by the event. As such it should also be considered as an effective fundraiser for sporting clubs, charitable and other organizations.

If you are interested in hosting an Affiliate Event, please review the hosting guidelines. Please note that the Affiliate Program has been set up to be independent of the Primary Tour and the F3T staff do not travel to your venue. You pick the date that works for you, find a suitable venue and we will then help build your program and provide you with a DVD or BluRay that is properly formatted and ready to go!
